Dear [Redacted]

Your letter of October 1st has been received, and the concern which prompted you to write is understandable. I was glad to learn of your interest in my book, "Masters of Deceit," and that you found it helpful. Perhaps you may also wish to refer to my latest book, "A Study of Communism," which contains an analysis of communist practices and contrasts totalitarian methods with life in a free country. A copy may be available at your local library.

In response to your inquiry, I would like to point out that information in our files must be maintained as confidential pursuant to regulations of the Department of Justice. In addition, this Bureau is strictly an investigative agency of the Federal Government and, as such, neither makes evaluations nor draws conclusions as to the character or integrity of any organization, publication or individual. I am sure you will understand the reason for this policy and why I am not in a position to comment as you desire. The FBI has not investigated the John Birch Society.

Enclosed is some literature which I trust you will find of interest.

Sincerely yours,

Dear Sir,

I would like to start this letter by giving you a brief description of myself.

I am [redacted] years old and a Veteran of the U. S. Army and Coast Guard. I served in Korea and I love my country deeply. I have [redacted] children, own my own home, though a modest one. I quit school at the age of [redacted] but worked on my own and finally got a high school diploma on my own time at night.

When I became old enough to vote I started to take an active interest in the political and ideological aspects of our country.

This is when I discovered the great communist threat to our country from within. I took to reading everything I could on the communist.

I would like to mention here your book "Masters of Deceit" which I enjoyed and found informative.

It has been my opinion for the last few years that there is a great communist movement within our government today, which you would know more about than myself.

I explored different ways I could stop this communist threat and I investigated the John Birch Society. After checking into the society as best I could I joined it. I must say that I have never seen a more patriotic and American anti-communist organization. But since I became a member (almost a year now) I have been subjected to a lot of mean and cruel criticism. I have been called a "communist", Scum, bigot and a few other choice names that I need not mention here.

K. L. H.

Captioned newspaper under the heading "Don't Bother to Call" told of the reaction to Senator Thruston B. Morton's (Republican-Kentucky) charge that the Birch Society is as dangerous as the Ku Klux Klan (KKK) and the Communist Party (CP). John Rousselot, Public Relations Director of the Society, claimed one need only to telephone Director Hoover in order to learn the Society is in no way similar to the KKK or the CP. The News said they did this and obtained no comment from the FBI while the local Society Chapter cited the California Senate Factfinding Subcommittee on Un-American Activities as saying that Mr. Hoover replied the FBI had not investigated the Society because it investigated only subversive organizations. The Director noted, "Just what did I reply? H."

BUFILES:

Bufiles reflect no specific indication that Mr. Hoover ever made the statement as reported. The California Senate Committee Report (above) for 1965, reflects the statement that the FBI had not investigated the Society for the Bureau only investigated subversive organizations. Perhaps, this is the source for this quotation. This 1965 report updated their 1963 report which concluded there was no subversive connotation to the Society.

Rousselot is known in Bufiles as a former young Congressman who concealed his membership in the Society while making inquiries of Bureau officials concerning it. Our relations with him were guarded and subsequently he became Director of Public Relations for the Society. During November, 1964, after Mr. Hoover was widely quoted concerning the Society, Rousselot telephoned for confirmation. He was told by outgoing 12-10-64, that the FBI had never investigated the Society and that the reason Mr. Hoover had no respect for its head was the linking of the names of former President Eisenhower and others with communism.

The Society's head, Robert Welch, was also written at that time and told of Mr. Hoover's personal reasons for having no respect for him and that we had not investigated the Society.

Morrell to DeLoach Memo
Re: Quotation attributed to the Director

BUREAU POLICY:

This issue was the subject of many inquiries at that time and Bureau policy repeatedly told of the confidential nature of data in our files followed by the terse statement that it had not been investigated. If a reference was made to Mr. Welch, a simple statement as to why Mr. Hoover had no respect was related.

However, in no case did the FBI or a spokesman for the Bureau state the reason for not investigating the John Birch Society relied upon its not being subversive.

Contrary to the above, however, the Department over Assistant Attorney General Yeagley's title was telling citizens why the Birch Society was not to be considered in the same category as the KKK. A concluding paragraph to their outgoing communications alluded to the Director's press conference on 11-18-64, and quoted Mr. Hoover as saying, "We have not investigated the Society. Our investigations are limited to subversive activities." Again, this could be the source of the quotation attributed to Mr. Hoover.

OBSERVATIONS:

While the FBI has continually emphasized the confidential nature of data appearing in our files followed by the flat statement that the FBI has not investigated the John Birch Society, some individuals including officials of the Department have added the apparent sequel thought that it has not been investigated because it is not subversive. Under our responsibilities in the internal security field this in effect is what is transpiring, that is, that since we have not investigated it, no data of substance has been brought to our attention indicating subversive connections. This becomes a moot question and the Bureau would be placed in an embarrassing position to deny a statement apparently released readily by the Department.

RECOMMENDATION:

For information.

DATE: September 29, 1965

FROM : N. P. Callahan

SUBJECT: The Congressional Record

Pages 24363-24364. Senator McGovern, (D) South Dakota, advised that "Yesterday I received a letter from an organization which calls itself the Americanism Educational League, under the signature of former FBI counterspy Herbert Philbrick, soliciting tax-deductible contributions to finance the distribution on college campuses of 500,000 copies of John Stormer's propaganda trash, 'None Dare Call It Treason.' - - - I fail to understand why an organization such as the Americanism Educational League which engages in this kind of outright political propaganda should enjoy a Federal tax exemption. Why should other taxpayers subsidize the operations of this radical political outfit? I urge officials of the Internal Revenue Service to take immediate action to remedy this situation." He placed in the Record Mr. Philbrick's letter; an article from the Washington Post written by Rowland Evans and Robert Novak, which discusses this latest propaganda project of the radical right; and an editorial from the Minneapolis Tribune condemning the destructive tactics and strategy of the John Birch Society.

Dear

Your letter of September 30th, with enclosures, has been received.

Based upon the data you have furnished, this Bureau has no record of a person by the name you mentioned as ever having been an employee of the FBI. You may be assured, however, that this Bureau is not infiltrated by any group which advocates policies contrary to the principles of this Nation.

With respect to your inquiries, information contained in the files of the FBI must be maintained as confidential in accordance with regulations of the Department of Justice. Further, it is contrary to my long-standing policy to comment on material not prepared by personnel of this Bureau. Therefore, I am certain you will understand why I cannot comment specifically as you have indicated. The FBI has not investigated the John Birch Society.

In connection with these matters, I have commented generally regarding the need for opposing communism rationally and intelligently. Our efforts to deal effectively with this subversive menace are not enhanced by those of the extreme right who tend to affix the communist label without intelligent analysis, or by those of the extreme left who endeavor to minimize the real danger of communism. In speaking of the extreme right, I refer to those individuals who would violate our laws to obtain their objectives. I consider them as lacking in true Americanism as those of the extreme left who would also violate our laws to achieve their own ends.

Enclosed is some literature it is hoped will be of interest to you.

Mr. J. Edgar Hoover
 Office of F.B.I.
 Washington, D.C.

Dear Sir:

Our community of New Richmond, Indiana and Linden, Indiana in Montgomery County has been flooded lately with propaganda concerning the John Birch Society. It has been like a cancerous growth spreading out and taking in new members. The growth of this organization is definitely a threat to our freedom and liberty. I understand the John Birch Society has taken in other communities in Indiana which seems to me it is definitely the aim of the organization to take over the state of Indiana and eventually the nation.

b6
 b7C

A man who has been giving speeches in this community against communism, but is very friendly with known members of the John Birch Society, is named [redacted]. He claims to have been employed by the F.B.I. until [redacted] (F.B.I.) became infiltrated with communists at which time he resigned. Is this true? He also claimed to have been an interpreter for the U.N. in about 1954, but the U.N. too was communistic. Do you have any data on this man?

An article in the September Farmers Union Newsletter stated Ezra Taft Benson's son had opened offices in Washington, D.C. to further the John Birch Society's efforts in getting the U.S. out of the U.N. and to impeach Earl Warren. In my opinion this association is a threat to our nation, so how can they be permitted to locate their headquarters in the heart of our capitol? I fully approve of the freedom of speech and press, but when organizations of this type use it as a weapon against the United States, can't something be done to counteract it? To hide behind the fifth amendment, proves to me an individual or organization has something to hide. Otherwise any and all questions could be answered.

I am enclosing literature which every person in the community of Linden and New Richmond received in today's mail. If we could have definite true answers to the questions the John Birch Society has listed, then we could fight fire with fire. I believe the truth is our only weapon, and if we can answer questions with a true answer to the members and prospective members of the John Birch Society, perhaps then we will be able to kill the growth of this cell. Any information you can give me on how to organize my community against this organization will be greatly appreciated.

In addition to our two small communities, the John Birch Society has penetrated into the county governmental operations under the name of "State Board of Tax Commissioners", and they filibuster at any county plans for progress under this pretense of trying to save the taxpayers money. Another name they operate under in Indianapolis, Indiana is the "American Opinion Library" 1514 North Pennsylvania Street from which they broadcast messages attacking the P.T.A. under the name "Let Freedom Ring."

I firmly believe these extremists are as dangerous a threat to the United States as are the communists. Will you please answer my request for information to combat this organization? Any advise concerning this will be greatly appreciated.

Yours truly,

Dear Sir,

Recently I was approached by an individual to join the John Birch Society. It was suggested to me that this organization was "patriotic" in nature and for the cause of our government. Since this is such a controversial group I thought that it may be advisable to contact the F.B.I. for suggestions to the advisability and quality of this organization. I have heard that it was not "for the betterment of the U.S.A.". I have also been told that it is infiltrated with communists.

Also include some information as to the communist activity in the World Council of Churches, if any. I would appreciate your view on these subjects.

Don't Bother

Sen. Thruston B. Morton's charge that the Birch Society is "as dangerous as the Ku Klux Klan and the Communist Party" drew this intriguing retort yesterday from the Society's public relations director, John Rousselot:

"All Sen. Morton has to do is pick up the phone and talk to J. Edgar Hoover to learn the John Birch Society is in no way similar to the Ku Klux Klan or the Communist Party," said Mr. Rousselot.

Well, the Washington Daily News took the tip, called the FBI and got "no comment."

The local John Birch chapter was more helpful, however, and cited a recent report by the California Senate Factfinding Sub-Committee on Un-American Activities stating that Mr. Hoover, when asked whether or not the FBI had investigated the Society, replied it had not because it investigates only subversive organizations.

Dear Mr. Hoover,

Recently, an editorial appeared in our local newspaper the, "Lafayette Journal and Courier." The editorial aroused my interest in writing you and hoping for a truthful answer from the F. B. I., is why I'm writing you.

The editorial was talking about the John Birch Society, where remarks were made in reference to the society that our editor said, the John Birch Society was as dangerous as the Communist Party and the Ku Klux Klan.

From all I have heard, this is so far from the truth, that I decided to get the complete information from a source that is our most reliable here in the U. S. A.

Dear Mr. Hoover,

I have recently finished reading the books "The Naked Communist" by Skousen & "None Dare Call it Treason" by John A. Stormer. I find I am very disturbed - if what these men write is basically correct - excusing them a few factual deviations - there should be more Americans exposed in some way to what is going on.

Would you please answer the following questions for me.

1. Are these books basically correct? If so I want to distribute copies in the community.
2. Is the John Birch Society the type of organization a truly patriotic American should belong to?

I appeal to you because I feel I will get the most unbiased opinion from a true American.

Thank you,

Sincerely

Mr. J. Edgar Hoover

Dear Mr. Hoover:

I am a member of a family whose nine children have been raised to be sound solid Americans. Both my father and mother came from Denmark over one hundred years ago. We were all raised to believe in God and to become PATRIOTIC American Citizens, and always ready to give our life, if necessary to save America.

This, I am sure, my whole family has done.

I think the worst evil to strike us is Communism and for a few years have been a member of the John Birch Society. I am now being criticised by certain left wing people and the left wing groups for belonging to the Society.

Could you please advise me if in your files you have any information to the effect that this group are subversive, have left wing tendencies towards communism or is it a sound thing to help the United States.

Sincerely yours,

Dear Sir.

I am writing to you. in hopes that you might be able to help me to obtain some information. For quite some time now, I have been concerned about some of the things I have been reading about the "John Birch Society" most of them very unfavorable. Some people say it is as great of a threat as communism. On the other hand I have talked to people that leave me with the impression that this organization is dedicated to fight communism by means of education.

It seem what I have been getting is, either from in the news/^{print}or by word of mouth.

I would like to know if the "John Birch Society" is a subversive organization and if there is any information, concerning this organization, available to the general public from your office,

If not could you advise me of any Federal or investigative agency or commitie, that could give a citizen a report or investigative findings, or any information regarding the "John Birch Society!".

Thank you very much for your time. An answer would be greatly appriciated.

Respectfully,

Dear Mr. Hoover:

①
This letter is about the John Birch Society. Since 1960 I have been reading much of their literature with interest but this slowly turned to suspicion. After reading your book entitled: MASTER'S OF DECEIT, I have found them to be equal to the Communist Party. What is your attitude toward the John Birch Society as an effective force against Communism? Please answer this question.

It had occurred to me, Mr. Hoover, that perhaps the Communist Party thought they could sway the American people to their way of thinking by organizing a society which purported to fight communism while in fact it was aiming at the Federal Government by putting doubt and fear in the minds of its members toward their governmental officials. On page 100 of your book you mentioned with regards to communistic tactics: "Any device that will advance its cause is urgently pursued." Why wouldn't this form of reverse psychology work in behalf of the Comintern to eventually force the people to revolt against their government? Certainly Mr. Welch is against everything this country stands for, but he has yet to make an intelligent statement on how to cope with any one of the many things he wishes to abolish from the United Nations to the Federal Income Tax.

If I might make a suggestion, Mr. Hoover, it would be to investigate this group a bit more thoroughly, then make a report of your findings to the American people. I know that the Birchites make much use of the fact that they have been investigated by a Senate Committee and came out of it with flying colors; but let us not lose sight of the fact that Jimmy Hoffa has been investigated twice by Senate Committees and twice he came out smelling like a field of carnations in full bloom.

Dear Mr. Hoover:

I have a great respect for the laws of these United States of America. I sincerely hope and pray that our Republic will always live. Long live America --- long live freedom.

My fears are great and my prayers are many for our Republic. It is almost as though I can feel the evil hands of a Communist government reaching down to destroy our great republic. God have mercy on us.

Tomorrow my son will be [REDACTED] years old. I wish I could be asured of him enjoying the same free way of life that I have enjoyed as a child and young person. I wish I knew he could rear his children in a free republic- I will teach my son to respect his national heritage and to understand God and Country must be defended regardless of how great the Cost. When (If the world should stand that long) he enters College I have taught him to respect the Holy Bible and the American flag to where if Logic is still a required Course when the question is ask Which is better to spit on the Bible or American Flag he will refuse to answer and of course since you are required to check one of the above subjects he will flunk - but I shall be proud of him for doing so.

Last year God made it possible for us to buy a book "None Dare Call It Treason," Believe you me this book scared me half to death. I was unable to sleep for several nights after reading it. I'll tell you something else it put me on my knees and I mean to tell you I meant business when I was talking to God about my Country and our

free way of life. I ask God to show me some way in which I could serve my Country in my spare time. I believe God wants us to ask him for help and I also believe He (God) wants and expects us to put feet under our prayers.

It was hard for me to find any one else with a concern for our future. Many of my friends were interested in having a good time or talking about their Church or their illness or watching T. V. but no one had time to read my book or to even want to become concerned with such nonsense as Communism. one person said "They will kill you first when they take over the government," Another said "You can't do any thing there is no need trying the Federal government wont let you" Another said I have enough to worry about and to think about beside thinking about Communism," - At last I found a minister willing to read my book "None Dare Call It Treason", and he knew of a person in another city that belonged to the John Birch Society. We learned we would need at least six people to begin a chapter-please believe me when I say it was a very hard job to find six people willing to join the Birch Society in my social circle.

In our Birch Society Library your book "Master of Deceit" is among the many good books available to use and it was indeed a great help to us.

You are a great Christian man and I have great respect for you and your work here in our Country. God is good to us the American people to let us have you in charge of our F. B. I. You deserve the greatest of medals because you have served our Country far beyond the call of duty. I know that God will continue to bless you and your reward will be great.

The reason for this letter is this _ Have I been wrong in joining the Birch Society. Was it wrong for me to have faith in Mr. Welsh? I believe him to be a great American, one who loves his country with a passion. Since so many people are afraid of the Society and some even tell me they believe we are a Communist Society I feel bad to write you for your personal advice, knowing you and your dept have records of most societies in our Country I feel you will tell me the truth.

Some reasons I am concerned in the Selma March. A Mrs. Nettie Adams wrote in an affidavit that she heard marchers

hollering and saying "We are Communist and we belong to the John Birch Society," Goodness I sure would not want to be any part of a Communist society. Another reason for my concern is a Senator George McGovern (Dem S.D) and the speech he recently delivered on the Senate floor about "the tactics of Birch Society and the "Radical Right," McGovern mailed a letter to "Labor" An International weekly Newspaper and an article reads "Blast Birch Society" Asserts Radical Rightists Aping Communist Tactics." And blast us he did. He really hit below the belt and it hurts too. I wonder if he was just dumb or if he was trying to deceive Labor. Any way they put his picture in the paper and printed a lots of lies. Unless of course I am the deceived one. I do not know how any person in America could want tax money to go to the U.N. and I can not understand why any person in America could be happy with the American flag being replaced by a U.N. and NATO flags in some of our U.S. Air Force recruiting posters this has actually happened. I am proud of the American flag. I believe in it and I think it is beautiful and should never take second place to a United Nations flag or a NATO flag. my son could say the pledge to the American flag before he learned to count to ten. We required him to learn to do so.

I found new hope for our republic through the Birch Society and I believe Mr. Robert Welsh to be a great man among men. Unless you give me reason to think otherwise I shall continue to have faith in Mr. Welsh and the Birch Society.

You will let me hear from you soon will you not? I know how busy you are but just one letter will let me know how you feel concerning the Birch Society. In my heart I know what your answer will be.

I want to serve my country and to serve it well. I will obey the laws of the land but, I will not like some of them. What ever I do I want it to be done right and always I will respect my trust in you as a honest Christian American man. I know you will help me in finding the truth.

Long may your life be and I pray for God to continue to bless you and use you so we can enjoying living in a good free American Republic.

Yours very sincerely and respectfully,

P. S.

Sir people living here in my community seem to be fearful of the federal government and perhaps there is good reason to feel this fear yet I have always felt like we the people are the government and maybe I am wrong but the only way I know to protest something is to voice my opinion about the matter. Do we the people control our federal government or have we let some secret power slip in and gain control? I can not understand why The News press decided to black ball Miss. And give only one side stories. I can not understand why a race of people as small as 12% in America can demand and receive - break the laws of our land and go free - no trial no fine no nothing - I can not understand why abc - nbc news on marches ect always put these people in the right and turn the blame of the trouble on us Southern people. We sothern people are not Negro haters. I believe the Communists knew they would have to break the south before they could take control of our nation. I am proud to be a southern born person I have nothing to be ashamed of. I am glad my home is in Mississippi - true the National press and some other communications media have muddy marks across our great south land somehow Sir I just know you understand us and the reasons why we have been branded outlaws in our own country. I am sick and tired of us (the south) taking the larger part of the blame for the lawbreakers breaking the law - Can you help us? Can you help the American people to understand the true story about us and not to believe every thing they read in magazines like "Time," "Life", "Look" and "The Saturday Evening Post." I wonder does it increase their sales for them to write lies about the South? Please Sir, help us: do not allow these people to continue mistreating us - help us to clear our name and to find favor in our Sister States. Or is it too late have the Communists master minds already ruined us. God knows our heart aches and our sorrows He (God) will not turn His back on us -- I just know there is a better tomorrow and I shall continue to watch and pray for it. Sorry my P.S. seems to have turned in to another letter.

P. D.

Sir people living here in my Community seem to be fearful of the federal government and perhaps there is good reason to feel this way - yet I have always felt like the people ~~and~~ the governments and maybe I am wrong but the only way I know to protest something is to voice my opinion about the matter. Do the people Control our federal government or does the let some secret power slip in and gain Control? I Can not understand why the News press decided to block ball Times. And give only one side stories. I Can not understand why a mere 2 people as small as 12% in American Cars demands and receives - break the bones of our land and go free - no trial no fine no nothing - I Can not understand why the news on marches with always put these people in the right and turn the blame of the troubles on the Southern people - the Southern people are not Negroes later. I believe the Communists knew they would have to break the south before they could take full Control of our nation. I was proud to be a Southern born person I have nothing to be ashamed of - I was born in Mississippi - told the National press and some other Communication media how much more worse our great South land would be if it was not for you understand me and the reason why we have been treated worse in our own Country. I am sick and tired of the (the South) taking the blame part of the blame for the backward looking the land - Can you help me? Can you help the American people to understand the true story about us and not to believe every thing they read in magazines like "Time", "Life", "Look" and "The Saturday Evening Post". I wonder how it increases their sales for them to write lies about the South? Please Sir, help me: do not let these people to continue mistreating me - help me to clear my name and to live free in our sister States - Or is it too late now the Communists wants me to already think so. God knows how foolish and how wrong that I will not turn this back on me - I just know there is no better tomorrow and I shall continue to watch and pray for it. Sincerely my Bro. seems to have turned into another letter.

A Training School For Communists

The Founder Of The American Civil Rights Movement

Joseph Pogány
From a sketch made in
about 1923

He was born in Hungary. The name he used publicly there was Joseph Pogány. In the Hungarian Communist Party he was John Schwartz. Later, in the American Communist Party, he was Joseph Lang. But he is most widely remembered today by his American pen name John Pepper.

This man first came to the attention of history as a leader in the Communist terrorist group that murdered Prime Minister Istvan Tisza of Hungary in 1918. He then helped to destroy the Karolyi government.

And with Tibor Szamuely he was one of the founders and chief executioners of that short-lived but incredibly cruel Communist regime in Hungary which was headed by Bela Kun.

When the Bela Kun terror was overthrown Joseph Pogány escaped to Moscow. In 1922, he came to the United States as Moscow's agent to take charge of the American Communists. After escaping capture at the Bridgman raid, he remained inconspicuous for some years. But by 1928 he had become a very clever master of the English language. And in that year, as John Pepper, he issued the sixteen-page pamphlet, *American Negro Problems*, through which he — and his boss, Stalin — established the longrange Communist program for fomenting and using a Negro Revolutionary Movement.

There is almost nothing being written, preached, or done, under the "civil rights" slogan today, which is not in accordance with the planning and instructions laid down by this alien Communist nearly forty years ago. *If enough of the good, patriotic, and idealistic Americans, who now constitute at least ninety percent of the strength of the "civil rights" movement, could be brought to realize the evil forces and evil purposes behind this pretense of humanitarianism, the whole horrible fraud would fall to pieces in three months.*

LB

SOME ALTERNATIVES:

FOR AMERICA

We propose that the following actions be taken in Vietnam with an unqualified understanding and commitment of the United States to withdraw all U.S. military power from that war-torn land.

1. Recognition of the Front for National Liberation as a legitimate indigenous political party; not simply the arm of a foreign power.
2. Immediate plans to provide for the evacuation of all Vietnamese citizens who feel their lives are in danger and who wish to leave the country.
3. Immediate cessation of the bombing of North and South Vietnam.
4. To provide relief from American military intervention in Vietnam; the U.S. should withdraw its troops. We realize that this withdrawal may not bring total peace to the citizens of Vietnam, and that it may result in a communist state, but we are sure that the U.S. would then no longer be involved in a war in which it has no legal or moral right.

This proposal seems to represent to us a correct and effective policy to further the well-being of the Vietnamese- a policy that recognizes that force and arms can never bring peace or freedom, and that we can no longer attempt to dictate the paths and futures of other nations.

FOR VERTOL

The Vertol Division, by supplying helicopters for the U.S. military effort in Vietnam, shares directly in the burden of guilt all America shares. We feel that, if workers and managers of this company truly desire to serve the interests of truth, morality, peace, freedom, and commonsense in foreign affairs:

1. The Boeing Corporation should refuse to sell helicopters to the United States for military use in Vietnam.
2. If Vertol continues to sell these helicopters, we urge workers to seek employment elsewhere. To work in this plant is to help kill innocent men, women, and children. Vertol helicopters are used to support a government headed by a General Nguyen Cao Ky, whose admitted hero in life is Hitler.
3. We urge management and workers to write letters and telegrams, picket, speak, and work in every area to get the U.S. troops out of Vietnam, also.

SOME FACTS:

1. France exploited Vietnam, as a colony, for more than 50 years.
2. During World War II, Japan took control of Vietnam from France.
3. The Vietnamese fought a guerilla war for independence from Japan.
4. After Japan surrendered to the United States, Vietnam was free for a short while.
5. The French fought a bitter 9 year war to reconquer Vietnam.
6. In 1954 the Vietnamese finally defeated the French Army of nearly half a million men.
7. In the same year, a conference of 14 nations was held in Geneva to settle problems in S.E. Asia. The United States was represented, but refused to sign the agreement. The United States promised NOT TO DISRUPT the agreement.
8. The Geneva Agreement
 - 1) Decided to TEMPORARILY divide this country into northern and southern sections at the 17th parallel to expedite resettlement of populations and evacuation of the French Army.
 - 2) Called for elections in 1956 in both southern and northern Vietnam to elect officials for a UNITED Vietnam.
 - 3) Forbade foreign bases and additional military armament in all Vietnam (northern and southern).
9. However, the United States
 - 1) In 1956 opposed the holding of elections as agreed to.
 - 2) Established heavily armed bases in Southern Vietnam.
11. After elections were not allowed by S. Vietnam and the U.S., nationalist Vietnamese went underground and resumed guerilla warfare. In 1960 they organized the Front for National Liberation, which is the only party in Southern Vietnam with wide spread support among the people, especially among the peasantry.
12. The Front for National Liberation (often called the Viet Cong) is a nationalist political coalition. It governs more than half of Southern Vietnam, and is fighting the U.S.-backed Republic of Vietnam, whose leaders are a group of Generals who took over from another group of Generals etc., etc. Sometimes the generals appoint civilians to collaborate. The Republic depends on the United States for military and economic existence. The Republic has little support among the people.
13. The Front for National Liberation will have to be included in any peace negotiations.
14. Our war in Vietnam is making people hate us... and making Communist influence stronger... and making Vietnam dependent on China... and bringing danger of World War III.

At Vertol, helicopters are made for use in the war in Vietnam.

For 25 years, the people of Vietnam have suffered through three wars. That land has become, by testimony of both sides, a testing ground in the Cold War. The people have been forced to endure the brutalities of torture and terror, the horrors of bombing, the destruction of homes and villages, assassinations, and the humiliation of being pawns in a great power struggle.

Once more war shows itself to be a bankrupt policy. It betrays all who rely upon it. It draws the participants ever deeper into a quicksand where they commit unspeakable atrocities and dishonor their professed ideals. Behind it all lurks the risk of a much more destructive war involving hundreds of millions of people.

As an alternative to present policies, we advocate that:

- * there be an immediate cease fire, and a commitment to unconditional withdrawal of U.S. and allied troops
- * a conference of all interested powers be called to insure a Vietnam freed of all foreign military intervention, with the people of Vietnam deciding their own destiny
- * the U.S. offer massive aid to all war victims, North and South
- * all Vietnamese, including the National Liberation Front, committed to resist social injustice and tyranny, should repudiate war as their way of struggle and turn the present battle into a struggle against war itself, by embracing nonviolent resistance.

To management and workers at Vertol, we make this appeal:

- * use Vertol facilities for nonmilitary production
- * if military production continues, we urge workers to seek jobs elsewhere, which contribute to peace and progress
- * if workers have difficulty finding other jobs, we stand ready to help in any way we can.

CNVA was organized in 1957 to oppose nuclear weapons tests. We sailed the ketch Golden Rule into the Pacific protesting U.S. tests. We walked to Moscow protesting Soviet tests. We have carried on direct action against war and war preparations. We are partisans of no military or political blocs and are committed to work for peace and justice by nonviolent means. Will you join us?

Public witness demonstrations, like this vigil-leafleting, are a form of nonviolent action. Unlike the power of violence, which is dependent on fear and often accompanied by secrecy and deception, nonviolence rests on self-sacrifice, and courage, loving adherence to truth, and is enhanced by openness. In order to make more sure an effective demonstration, and to guide those inexperienced in public witness, all participants are asked to observe the following principles of conduct and discipline.

- (1) All are welcome who are in general agreement with the policy of the group. Please read the leaflet carefully.
- (2) Please refer all officials, police, etc. to the demonstration coordinator. If questioned by the press, be sure to first emphasize that you speak only for yourself—that statements of formal group policy can be made only by the coordinator or someone he designates.
- (3) In no case will we respond to provocation with physical violence or verbal abuse. In all discussions we should try to speak to the best in others, rather than seek to exploit their weaknesses to what may seem to be our advantage.
- (4) Persons under the influence of narcotics, hallucogens or alcohol are not welcome at this demonstration.

Dear Mr. Hoover,

Recently there has been much discussion in the press and other mass news media concerning the John Birch Society. Since I consider you one of the best informed men in America concerning Communism and Americanism I would value greatly your personal opinion of the Society; that is, do you consider it to be subversive, or is it helping to alert Americans as to the nature of the Communist menace.

Thank you for what you are doing to keep order and freedom in our lives.

I am thanking you in advance.

Sir:

The Saturday Evening Post, 25 September 1965, in an article on your career in the FBI, states on Pg. 32, Col. I, Paragraph 7:

"Despite the tendency of many liberals to lump Hoover with his far-right admirers, Hoover disavows the ultra-conservative political label, terms himself an 'objectivist', and has publicly declared that he 'has no respect' for the extremist notions of Robert Welch, founder of the John Birch Society."

I am interested in having the last point clarified. To me, the direct quote 'has no respect' as used in the above paragraph is rather weak, and possibly misleading. If you could provide the complete comment made by you concerning Mr. Welch I would be grateful.

Dear Sir:

Some months ago my wife and I joined the John Birch Society.
After many months of study and participation, we believe we are
thoroughly familiar with the aims and methods of the organization.

Based on our own experiences within the Society, we feel that the
various charges currently being leveled against it from almost
every direction, are groundless. Yet, the sheer weight of numbers
and the viciousness of these attacks, appearing almost daily in
our newspapers and on television lead us to wonder whether our
judgement is faulty.

Since you are regarded as the nations foremost authority on the
communist conspiracy and your opinions are highly respected by
all, we look to you for advice.

are the communists as deeply entrenched in our country and our
government as indicated by Robert Welch and the numerous other
authors and lecturers who are given voice through the John Birch
Society? Do you know of any better way that we, as private
citizens, can fight communism, and thus serve our country, than
through the John Birch Society?

My wife and I will be deeply grateful to you for taking the time
to answer our questions.

Sincerely,

The Honorable J. Edgar Hoover
Director of the F.B.I.
Washington, D.C.

Dear Sir,

I am anxious to know if the F.B.I.
has any information concerning the
John Birch Society? In these days
when one can hardly believe all
he believes in the news papers &
magazines, it is hard to determine
for sure the truth about any organ-
ization. If at all possible I would
like your views or those of your
organization concerning the Society
& its activities. In your opinion,
is it a patriotic organization?

Very sincerely,

 Huffman, Tex.

Dear Sir,

Over a year ago I became interested in what is, and has been happening in this great nation of ours. (I'm 33 years old, and finally woke up to some of my responsibilities as a citizen!) I only hope that there are many more that are waking up before it is too late.....

Your book, "Masters of Deceit", was very enlightening and well put. I congratulate you for your courage to speak out about the serious internal threat of communism in our nation.

Anti-communism has been subjected to an accelerated smear campaign in the past few months by Look, True, Life, Time, Good Housekeeping, AFL-CIO COPE, and assorted other public news media. It seems that anyone who tries to take a stand against the socialist direction our nation is heading toward or is an outspoken anti-communist; is branded as an "extremist".

It appears that anyone who voices a belief in God, (particularly a devout Christian), would also be in this category since his belief does not go along with that of the "crowd". Are we Christians to be the target of the next attack? Who is behind all of this?? Either I am letting my imagination run away with myself; Or the communists are really pushing!!

My wife and I, along with several good friends, have attended the past 2 monthly meetings of the newly formed local chapter of the John Birch Society. I have read their complete packet on the civil rights issue and find that it makes good sense to me. I did not detect any hate in it. I have completed most of the "Blue Book", and I find myself agreeing with most of its' contents.

Dear

Your letter of October 10th has been received, and I am pleased to know that you enjoyed reading "Masters of Deceit." Perhaps you will also want to read another of my books, "A Study of Communism." This was written to furnish readers an analysis of international communist practices and contrasts totalitarian methods with life in a free country. It may be available at your local library.

The Communist Party in this country has attempted to infiltrate and subvert every segment of our society. The Party's efforts, however, are being thwarted by the FBI's internal security programs, by investigation, arrest and prosecution of Party functionaries, and by widespread, intelligent public opposition to the communist philosophy. These achievements are being accomplished through orderly, legal procedures.

Despite the above, the world communist conspiracy and its advocates in the United States continue to pose a basic threat to our country. It is important that our citizens educate themselves concerning the true nature of this insidious philosophy in order that they will be able to resist its eroding influence. At the same time opposition to communism must be careful and constructive and kept within the due process of law. It is not enough to be merely against communism. We should exhibit in positive ways the superiority of our form of government over any foreign ideology.

I would like to point out that information contained in our files must be maintained as confidential in accordance with regulations of the Department of Justice. I am sure you will understand the reason for

Hon. J. Edgar Hoover
Director of the Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover. The following "P. S" I am copying from a letter received recently from Bonaro Overstreet.

" P. S. People who don't like The John Birch Society and its tactics of labeling as Communists or pro-Communists any person or group with which it disagrees are not necessarily, you know, against patriotism and anti-Communism. J. Edgar Hoover, in his sworn testimony before the Warren Commission on May 14, 1964, made it perfectly plain that he considers those who make "allegations that Gen. Eisenhower was a Communist" and "disparaging references to the Chief of Justice" as just as dangerous on the Right extreme, as Communists are on the Left. "They don't deal with facts. Anybody who will allege that Gen Eisenhower was a Communist agent, has something wrong with him" And Mr. Hoover was speaking, I would emphasize, under oath. See Hearings before the President's Commission on the Assassination of President Kennedy. Vol 2 p. 101. In like view, at the same press conference last fall, when he called Martin Luther King a liar, Mr Hoover said flatly that he had "no respect" for the John Birch Society. Would you contend that Mr. Hoover is against all anti-Communists?"

I do not belong to the John Birch Society but I believe the majority of members are upstanding American Patriots. Why Mrs Overstreet should add the P. S., which contains your name, to a letter with which it had nothing to do, is known only to Bonaro. I don't know the Overstreets personally but I have heard something of their activities. That I received the letter from Mrs. Overstreet is a strange thing and comes about because I objected to their endorsement by the United Church Women.

In a small way I have been trying to acquaint friends and others about the Communist Conspiracy. Would it be too much to ask if either or both of the Overstreets were ever called before the House un-American Activities Committee? They have been accused of it by a reliable source. Bonaro denies it about herself.

There is another question. I have known for a long while that there was a man named [redacted] connected with the robbery of Gov. documents in the Amerasia Case. He was in the State research dept. and an adviser to President Eisenhower, positions which [redacted] also held. I asked Mr. Dan Smoot. He wrote they were not the same. Somehow I cannot be satisfied that there is no connection.

Mr. J. Edgar Hoover
Federal Bureau of Investigation,
Washington, D.C.

Dear Mr. Hoover,

I know you are a very busy man and this is likely to get lengthy but I hope you will bear with me.

Last winter I was given the Blue Book of the John Birch Society, by a friend who asked me to read it and tell them what I thought of it. I read and their aims seemed to me to be very worthwhile and commendable. There were a few things I didn't care for like the monolithic set up of the society, but I thought it worthwhile finding out about. Several others read the Blue Book and in due time we formed a chapter. I found the monolithic set up didn't affect us because we don't have to do any specific things as members. By this I mean suggestions are made about writing and so on, but we follow our own thinking and there are no checks made as to what we write about.

After a few months of this the trouble started. We were literally torn apart by others in town. We (according to them) belonged to a secret organization, we were against everything, we said there was communism in many places, and etc. Now I have found out that there is nothing secret, there is no more of anything made available to me than to a non member. I am certainly not against everything, I am for more things than I am against, and I do believe there is communism in many places that many people are unaware of. I have by the way read your book, "Masters of Deceit".

I do not go along with Mr. Welch in his conclusions in his "Politician" nor do I think it is necessary to agree with him. My main interest and that of the people here in our town connected with this, is to stimulate interest in government, to become aware of conditions as they do exist, to arrest the general apathy among so many. I do not expect everyone to come to the same conclusions or to follow a certain pattern.

Now come all the attacks against the society in the newspapers magazines etc. Many of the charges I know are false. Other members elsewhere receive different literature than ours. But one can't help wondering, am I being very naive and missing something entirely. The people I know who are in this are all wonderful people, church people, different backgrounds who seem to respect others for what they do, not their color or religion. These are the type of people I want to know and associate with, but are we all being taken in?

Last week I was invited to a talk by Julia Brown, who stated she had been an undercover agent for the F.B.I. She also was asked what she thought of the John Birch Society and was very much in favor of it.

People also charge that the Birch Society is trying to take over in politics- but nowhere in the literature do they suggest how you should vote or who for, just to inform yourself about those running for office in your own locality and make up your own mind.

My only interest is to become informed and do what little I can to fight against communism. I read not only John Birch literature but books and articles on all sides, as much as time will allow, so far I cannot see what I am doing that is wrong. However I am certainly willing to listen. I realize that very sincere people have been duped before, like those who joined or were affiliated with the Communist Party, and later realized how wrong they had been.

Could you please advise me? I have a great deal of respect for you and the F.B.I. I would like personal advice and also could I ask you to make a statement publicly on the whole situation? I know many people who don't have anything against the Society except for Mr. Welch. I don't feel however that we have to agree with him on everything or that people just blindly follow him. Possibly I am very wrong.

I know this has been long and rather rambling, but I tried to put down my thoughts honestly and sincerely, not couched in fancy phrases. I will appreciate an answer more than words could express, for if nothing else at the moment I find myself very confused.

Most sincerely,

Mr. J. Edgar Hoover
Commissioner of F.B.I.

Washington, D.C.

Dear Mr. Hoover:

The John Birch Society (recent letter to me Sept. 28, 1965) fortify their accusations of treason against ex-President Eisenhower, and other authorities in Washington, with statements and writings of yours, the following as a sample:

"Every Communist today must be considered as an enemy, wherever he may be, at home or abroad. A "soft" approach toward the menace of communism can lead only to national disaster."

Treason, of course as you know, consists of "adhering to their enemies, and giving them aid and comfort."

Is not the one important question in all this matter, how shall we define an enemy? so that to give him aid and comfort will be treasonous? Surely to give aid and comfort by selling wheat to a hungry nation, making large loans of money, extending time to pay war debts, and the such, is giving aid and comfort. But because a country maligns us, lies about us, accuses of imperialism, making combinations against our trade and commerce, refusing to pay their war debts to us, etc., etc., is any or all of this combined necessary to make them enemies; so that if we give such a country aid and comfort we are traitors? Under such a situation all the three branches of the government are traitors.

To be such an enemy, so that if we give him aid and comfort it would be treasonous, would he not have to have done some harmful act to the body corporate of the United States; or "cocking his gun and pointing it at us" to be such an enemy. Khrushchev was getting his missiles in Cuba so as to fire upon us and thus in the process of making him such an enemy; but upon demand he pulled them back: and thus avoided making John F. Kennedy a traitor because he was selling wheat to Russia and thus giving them aid and comfort.

Because the Birch Society claims you as a sponsor of their claims that many of our Washington officials are traitors to the United States, I would appreciate your definition of our enemy, who when we give him aid and comfort, it would be treasonous.

Yours sincerely, and respectfully,

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

A candidate, with excellent qualifications, is campaigning for a seat on the Cleveland Board of Education. Four years ago, this candidate ran unsuccessfully for the School Board. When directly questioned, the candidate recently admitted membership, for approximately the past one and one-half years, in the John Birch Society.

In your opinion, Mr. Hoover, would membership in the John Birch Society disqualify a candidate for election to the Cleveland Board of Education? I would very much appreciate a prompt reply because the election occurs on November 2. You may wire me, collect, your answer.

Very truly yours

J. EDGAR HOOVER
Director, F.B.I.
Washington, D. C.

Dear Mr. Hoover:

I am quite concerned about the demonstrations throughout this country to end the war in Viet Nam, intergration, and civil rights.

If anyone will take the time to investigate these demonstrations, it is easy to see this is part of the Communist plan to take over the United States. Yet, our Government does not advise us on Communism. What is it? How are we to recognize it?

I am employed at Cape Kennedy. Before I could start work I was required to fill out form "DD48-1 Certificate of Nonaffiliation with Certain Organizations". The John Birch Society is not listed on this form. Although I am not a member of this organization, I believe they are doing an excellent job to combat Communism. I would like to know if you concur that this is a good source of educational information on what and how to understand what Communism is?

We have a "Safety Engineer" that informs us of hazardous conditions that exist in our line of work through a "Safety Bulletin". Also we have a "Security" man that's only interest seems to be if classified filing cabinets are locked. Certainly he could distribute some information from the "House Committee on Un-American Activities" so that more people would be informed on Communism.

I am looking forward to hearing your answers and opinions.

Sincerely,

Dear Mr. Hoover:

At a recent meeting of the Young Republicans monthly meeting, held in my city of residence, La Mirada, the featured speaker used some statements which you made in 1960.

After his talk - on the United Nations, Education and the Watts Riots - I asked the speaker where he obtained the information on the things which you had written.

The speaker produced a pamphlet, about 5" x 6", and which, as best I could determine, was entitled "An Analysis of the 17th National Convention of the Communist Party" as taken from the FBI Law Enforcement Bulletin of 3/1/60.

Yesterday I visited your Los Angeles FBI offices, and asked for a copy of this pamphlet. Unfortunately they did not have a supply, but they did give me other statements which you had made about the Communists, for which I was thankful.

I would appreciate very much receiving from your Department, 50 copies of the pamphlet mentioned above. Your comments of introduction to the analysis of the 17th National Convention of the Communist Party were very timely, and can be put to good use in educating well-meaning, but sadly informed fellow workers.

Thank you for your help in obtaining these copies.

Sincerely,

Dear Sir,

I am a Methodist minister and am experiencing some activity from the local John Birch Society and other extreme right groups. It has been suggested that the Bureau could help us to get needed information with which to counteract the right wing programs.

Would the Bureau have available materials with which to use in rebuttal against this type of agitation? Would these materials be available for my use? Can these materials be reproduced for distribution at public meetings?

The largest single group and by far the most vocal has been the John Birch Society and I believe that I must speak out against this group before the dissension in my churches and in the local community reaches proportions that will be difficult to counteract.

Please forward any materials that are available and any suggestions as to their proper use.

FROM : N. P. Callahan

SUBJECT: The Congressional Record

Page A3368. Senator Scott, (R) Pennsylvania, extended his remarks to include a statement by Senator Morton, (R) Kentucky, in which he deplored efforts by the John Birch Society to infiltrate the Republican Party, and an editorial from the Pittsburgh Post Gazette of October 4th entitled "Birchers Disowned." Mr. Morton stated "There are three organizations in this country which give me grave doubts as a citizen: the Communist Party, the Ku Klux Klan, and the John Birch Society. Although their goals differ, they have one thing in common, and that is secrecy. I am sure that Mr. J. Edgar Hoover has a fairly substantial list of the members of these organizations."

Readers' Views**'Finest Americans I've Ever Known'**

TO THE EDITOR: I have been a member of the John Birch Society since September 9, 1964.

Before adding my name to the society's roster, I investigated it most thoroughly, as my decisions have always been governed by Davy Crockett's advice: "Be sure you're right—then go ahead." In this case, being sure that I was right included extensive reading, numerous meetings, and finally a visit to Cincinnati's FBI office to make certain that I wasn't being "taken in." It wasn't until after such precautions that I "went ahead." Now, after more than a year of membership, I can state unequivocally that the John Birch Society is the finest body of dedicated, God-centered, anti-Communist Americans I've ever known.

And yet, for more than a year now, I've watched the society's name suffer a continuous barrage of gross misrepresentations, slanderous innuendo and vicious falsehoods. At first these attacks evoked my ire and alarm, but a few months in the "stoning pit" taught me to take it all in stride with a hearty "ho-hum." I've disciplined myself, as all Birchers must, to keep right on working for what I know is right, despite all the vituperation hurled at us daily. As of this moment, I've yet to regret my affiliation, and

—with rare exceptions—I've yet to see us get a fair shake from the press.

When Bill Buckley parried at us not too long ago, I almost yielded to my passion for rebuttal, but I somehow managed to bite my tongue one more time and let him have his fun. But The Enquirer (October 13) has finally succeeded where Buckley failed: I've had it!

Your editorial, "No Birchers On The Air," didn't particularly disturb me until I encountered the statement: "The major Welch contribution to the last five years, consequently, has been discrediting a vast part of the anti-Communist movement in the United States." The implications of this blatant lie transcend the usual realm of absurdities which we endure, and veer off on a tangent of truth-reversal right out of "1984." I've long admired—with some reservations—The Enquirer's editorial integrity, but for once I'm at a total loss in discerning what lies behind this journalistic perversion.

The unvarnished truth is that despite differences of opinion in the conservative camp, Mr. Welch has yet to cast the first stone against any anti-Communist whatsoever. To the contrary, it is Mr. Welch who has endured Mr. Buckley's proddings, even though Buckley owes Robert Welch a debt of gratitude for helping National Review gain

financial footing. And it is Mr. Welch who has taken Senator Goldwater's criticism without a whimper, although Robert Welch has voiced his personal praise of the senator on several occasions. And it is Mr. Welch who continues to support these anti-Communists, and others like them, despite their tendency to join the already overcrowded ranks of "Birch-batters."

If The Enquirer now chooses to jump onto the anti-Birch bandwagon, then I can only recommend that you take some lessons from the Communists themselves, as they scooped you back in February of '61 by taking first crack at us in their own People's World.

TOM DAUGHERTY, 2219 Greenup St., Covington.

Mr. J. Edgar Hoover
Office of the Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

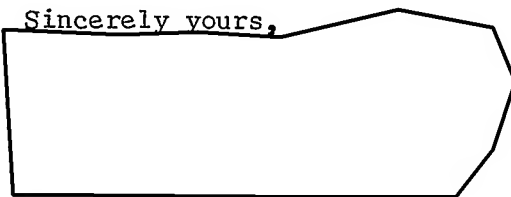

I am a Businessman, a Republican, and a strong Conservative. I am confused about a certain Organization, and I would very much like to know if this Organization is legitimate and in the best interests of the American people.

The Organization to which I refer is the John Birch Society. In some newspapers they call this organization radical and extremist, and in other newspapers they praise the John Birch Society. Also on radio and television there have been conflicting reports about this organization.

As a businessman and Republican, I am interested in supporting all organizations who are against Socialism and Communism in this country.

Would you please take the time from your busy schedule, or have one of your secretaries let me know what the status is of the John Birch Society. Naturally I do not expect you to endorse this Organization; I just want to know if it is operating as a legitimate organization, dedicated to the preservation of the American Constitution.

Sincerely yours,

Nashville, Tennessee

John Edgar Hoover

For the past year or two I been trying to do what all the polititians advise to become a good citizen. I've been reading about all the candidates & issues. I've been trying to become aware of new bills up before Congress and their meaning for our country.

Imagine my horror when I discovered that conclusions I've come to coincide in most aspects with the terrible Birchers & the extremist. I was certainly surprised to find that the J. Birch society is not a communist organization. Can most Americans be as ignorant as I was?

I trust you, I like to read what you say--I agree. I think you are one good man. So you have a responsibility to me and the rest of the people. Let us know publicly from your own lips what we are to believe. To you in Washington, I guess the rest of us seem terribly ignorant & we are.

So tell me--is there an Index nine? --Who put it out? Is it correct--are there communist known to the government working in key positions? What are the Birchers doing that's so wrong? Are books such as 'None Dare Call it Treason?' correct in the facts? If not why doesn't someone sue them or expose the truth?

I know this isn't the best written or most intelligent letter, but if I take time to go over it--I won't send it. I like to be a part of the crowd & am uncomfortable because I'm fast becoming otherwise.

Gentlemen:

Some months ago, I wrote the John Birch Society in the hopes of getting some information as to how they stand. There's so much controversy that I wanted some material first hand from them on exactly what they believe. The society sent some so data and an invitation to a meeting here in Racine which I rejected. Not only did I not attend but I never sent for any more literature nor did they send me any additional material. But something has been troubling me of late, and my question is this: Is the John Birch Society considered (by the F.B.I) a radical, extremist, dangerous organization to the welfare of the U. S. and should it be shunned? Would I be up against future incriminations in later life (I'm [REDACTED] by having my name sent in to this society? I merely sent for information once, and that was it, but was that too much? If I am in a position where I might be in danger later on, is there anything that I can do about it now? Or, on the other hand, is there nothing evil to this organization? I would sincerely appreciate your reply so as to help me clear my mind of this situation. Thank you very much.

Dear Mr. Hoover:

Inclosed is an article from the Tuesday edition of the local newspaper.

After reading this article I feel the need to be informed in the right manner, concerning this article and its charges. Your office seemed to me to be the only source of truth!

As a minister, I feel a great responsibility to God and Country, and since I have within my parish some members who are of the John Birch society, I felt that I must know the truth and how to deal with this type of attack.

Thank you for your time and consideration.

John Birch Society

Handwritten notes: 3, Act 11/1/65, SEP/10/8

LET'S QUIT KIDDING OURSELVES ABOUT THE UNITED NATIONS!

THE UNITED NATIONS IS A COMMUNIST TOOL FOR CONQUERING THE UNITED STATES WITHOUT FIRING A SINGLE SHOT

READ THE FOLLOWING INDISPUTABLE TRUTH, THEN DECIDE FOR YOURSELF IF THE UN IS GOING TO SAVE YOU OR ENSLAVE YOU.

INDISPUTABLE TRUTH NO. 1

The UN was conceived by Communists.

Official United States documents list the following 17 men who were key government figures in the planning of the UN: Alger Hiss, Harry Dexter White, Virgilius Frank Cox, Dean Acheson, Noel Field, Laurence Duggan, Henry Julian Wadleigh, John Carter Vincent, David Welles, Nathan Gregory Silvermaster, Harold Glasser, Victor Perlo, Irving Kaplan, Solomon Adler, Abraham George Silverman, William L. Ullman and William H. Taylor.

Of these 17 men responsible for the structure of the UN, every single one except Dean Acheson has been identified in sworn testimony as a secret Communist agent!

INDISPUTABLE TRUTH NO. 2

The UN is now and has always been controlled by Communists.

Of the 6,000 people employed in the UN Secretariat, many of whom are either Communists or Communist sympathizers. The three Secretaries-General of the UN, Trygve Lie, Dag Hammarskjöld and U Thant, have all been outspoken Socialists who openly favor world Socialism.

Alger Hiss and Russian foreign minister Molotov made a secret agreement that the head of the UN military staff would always be a Communist. To date there have been 8 different men appointed to this all-powerful post which controls the military, atomic energy and disarmament affairs of the UN. All 8 have been Communists, 7 from Russia and one from Yugoslavia.

INDISPUTABLE TRUTH NO. 3

The UN is a propaganda weapon of the Communists.

An official UN pamphlet states the following: "It was the Communist party which showed the peoples of Russia the true way to free themselves from social and national oppression . . . The Soviet Union is a brotherhood of free and equal peoples."

Another official UN booklet, prepared for young children, has a cartoon which shows the founding fathers of the United States as three ugly and

grotesque creatures snarling at each other while a rat watches from the floor.

Still another official UN publication, "Toward World Understanding", emphasizes the theme that the government must replace the family. It stresses the importance of "freeing the child from the mole from the family."

These are but three examples of the straight Communist Party line which is being promoted continually by the UN.

INDISPUTABLE TRUTH NO. 4

The UN does nothing to halt Communist aggression.

Since the founding of the UN, Communists have imprisoned over 750 million people behind the Iron Curtain by taking control of Albania, Hungary, Yugoslavia, Rumania, Bulgaria, Czechoslovakia, North Korea, Manchuria, East Germany, China, Tibet, Northern Laos and Cuba.

Not once has the UN taken action to prevent the take-over of these countries and the mass murder and enslavement of their people by the Communists.

INDISPUTABLE TRUTH NO. 5

The UN acts in defense of Communism.

In Africa In 1960, President Tshombe of Katanga, a Christian and a supporter of democracy, declared that his province wanted to secede from the Communist-controlled Congo. UN Secretary-General Hammarskjöld said: "This is an internal political problem to which the UN as an organization cannot be a party."

But UN troops did enter Katanga in support of Congo's Communist Prime Minister Lumumba. These UN troops murdered unarmed civilians and Red-Cross workers, committed rape, machine-gunned and looted civilian homes, bombed hospitals, and committed countless other atrocities in an unbelievable reign of terror.

During this period Lumumba said to his people: "Long live the Soviet Union. Long live Khrushchev." It was this man that the UN kept in power in the Congo.

INDISPUTABLE TRUTH NO. 6

The UN is a Communist tool for conquering the United States without firing a single shot.

An official Communist pamphlet titled "The United Nations" tells how they plan to use this organization to conquer the world. It lists 4 reasons why Communists should support the UN:

- "1. The veto will protect the USSR from the rest of the world."
- "2. The UN will frustrate an effective foreign policy of the major capitalistic countries."
- "3. The UN will be an extremely helpful instrument in breaking up the colonial territories of non-Communist countries."
- "4. The UN will eventually bring about the amalgamation of all nations into a single Soviet system."

LET'S QUIT KIDDING OURSELVES ABOUT THE UNITED NATIONS!

The United Nations is a Communist Tool

for Conquering the United States
Without Firing a Single Shot.

The United States and not the UN offers the only hope for world peace. Without the United States, Communism would today control the entire world—and the UN would have done nothing to prevent it.

Communism—not nuclear weapons—is the greatest threat to our existence today. Communism is the enemy which promises to bury us. Communism is the enemy which forces us to maintain an arsenal of nuclear weapons for our own self-preservation.

And now we are asked to turn our military power, our judicial system, our very existence over to an organization dominated by these same Communists who have vowed to destroy our United States.

This is nothing but surrender!

Let's not surrender this wonderful country, the United States of America, which has been so aptly described as "The Last Best Hope on Earth." Not only our forefathers, but many of our children and grandchildren, fought and died to protect our freedoms. What a mockery it would be if we would now hand over these priceless freedoms to the Communists who dominate the UN.

Instead, we must demand an end to this Communist-controlled UN, which is a Communist tool for conquering the United States without firing a single shot!

DON'T BE MISLED BY STATEMENTS SUCH
THE FOLLOWING:

"The UN Favors Disarmament."

Yes, they want all nations to throw away their weapons. Then the UN army will have absolute control over all the world—including the United States.

And who will have control over the UN and its army? The Communists, of course. Just as they have had control every day since the UN was founded.

"The UN Favors Peace"

Yes, everyone does. And the UN paints grim pictures of the horrors of war. Yet they ignore the equally grim fact that people can die at the hands of a dictator as well as from atomic weapons. They ignore the millions of people who have been murdered by Communist governments since the UN was founded.

If our country surrenders its sovereignty to the UN, we won't have war. But we will be at the mercy of a Communist monster whose only goal is to dominate the world and who doesn't care how many millions of people he must murder and enslave to reach this goal.

"The UN is Our Only Hope"

If the UN is our only hope, then we have no hope. We will abandon ourselves and our children to a society where the basic American concept of freedom under God is not even recognized. We will be at the mercy of men who have no mercy. We will be Communist slaves—or we will be dead.

Is this the choice you, or your children, want to have to make some day?
